FACULTY

M. C. McDaniel—Superintendent.

Diploma State Teachers College; B. A. Mississippi College. Graduate student one year Mississippi College; graduate student, University North Carolina; graduate student, University of Mississippi; three years experience high school principal; junior college professor and administrator since 1921.

J. B. Price—Mathematics and Chemistry.

B. S. Graduate Millsaps College; M. S. Graduate, University of Mississippi; chemistry assistant University, one session and two summers; high school principal.

B. A. Dixon—Agriculture.

B. S. A. and M. College; graduate student A. and M. College; several years as high school agriculturist in Yazoo, Clay and Montgomery County Agricultural High Schools.

Miss Jessie Van Osdel—English.

B. A., Grenada College; M. A., Peabody; teaching experience more than 8 years.

Mrs. C. N. Craig—History and Education.

B. A., Blue Mountain College; M. A., University of Mississippi; more than 8 years teaching experience in high schools and junior college.

Miss Lucille Gray—Commercial.

B. S., Mississippi State College for Women; more than 3 years teaching experience.

Mrs. Ras Branch—Biology and Coach.

B. A., Mississippi College; graduate student, University of Minnesota; teaching experience.

Miss Lottie Peebles—Home Economics.

B. S., Peabody College; graduate student Peabody; more than 6 years teaching experience Home Economics.

Miss Johnnie Lou Williamson—Languages and

Physical Education.

B. A., Mississippi Women's College; graduate student North Carolina University; assistant instructor Mississippi Women's College; teaching experience.

John G. Leonard—Band Director.

Many years of successful experience. Director of Millsaps College Band.

Miss Mabel Gewin—Music.

B. A. M. S. C. W.; summer study at University of Alabama and M. S. C. W.; music diploma M. S. C. W.

Miss Annie Bess Watkins—Expression and English.

B. A., Blue Mountain College; graduate student Peabody College; more than 3 years teaching experience in High Schools and Junior Colleges.

Huntley C. Lewis—Bookkeeping and Mathematics. Mathematics.

B. S., Bowling Green College of Commerce; office and teaching experience.

Mrs. M. P. Marshall—Dietitian and Matron.

Student of Dietetics A. and M. College; experience in Junior Colleges.

**OTHER OFFICERS OF
ADMINISTRATION**

Mrs. M. P. Marshall—Dean of Ladies.

Mrs. B. A. Dixon—Hostess Girls' Dormitory.

Mr. Ras Branch—Dean of Men.

Mrs. C. N. Craig—Hostess Boys' Dormitory.

Miss Lina Terry—Secretary to Superintendent.

FOREWORD

The Holmes County Agricultural High School, established eighteen years ago, has a history which the management and citizens of the county have a right to be justly proud. Beginning with one building and a small enrollment, the plant has been enlarged until today it is one of the best in the state and the attendance has steadily increased. During the session just closing the capacity in the girls dormitory has been inadequate. To this end a new dormitory has been planned and will be ready for occupancy next session. Our aim has been to build a school worthy of our people that would challenge their support on merit of thorough work and desirable social and moral environment.

The correct estimate of a school depends not upon magnificent buildings and expensive equipment but upon the character and work of the men and women it turns out. We submit the record of our graduates as an evidence of the real work and worth of the school. We are entirely satisfied to rest the reputation of the institution upon the statements and standings of our students.

The success of the school is attributable to several causes. The teachers have devoted themselves to the welfare of the students. The trustees have pursued a wise policy in the management of the institution and the progress of the school has been made without burdening the taxpayers of the county. The supervisors of the county have given it hearty and liberal support. The entire citizenship of the county has manifested a friendly concern and co-operation without which the school could not have accomplished what it has. We earnestly ask for this continued interest.

The rapid development of the schools of the county has caused an urgent need for the enlargement of the sphere of usefulness of the school by the authorities. Responding to the situation, standard Freshman College work was added to the course of study. This work has met with success for past two years and re-

cently the Board of Trustees and administration deemed it wise to add the Sophomore College work. To this end the junior College commission was invited to give the school an inspection. This has been done and according to the recommendations of this body at the Spring meeting of the Commission the school was approved as a two-year college, so that graduates receive full credit for their work done here. We have graduated two classes from college department. These students will be received by senior colleges in junior work, and thus will finish their college work in two years. One of the strongest faculties that can be found in any junior college has been secured.

The school stands squarely upon its record of achievement as a guarantee of greater things for the future. We earnestly seek the co-operation of the citizenship of the county in our efforts to make it an institution of the greatest service to the young people of this and adjoining counties.

LOCATION

The Agricultural High School is situated a little less than a half mile west of the depot at Goodman, which is located in the eastern part of Holmes county on the Illinois Central Railway. The healthfulness of the entire section is unsurpassed. An artesian well affords a supply of pure water. The topography of the country insures excellent drainage. There is no local cause for sickness. In addition to waterworks the town boasts of good electric lights and a splendid sewerage system.

The location is ideal in every respect for such a school. While we have the conveniences of town, we enjoy all the benefits of a rural environment. There are no attractions in town to entice the students away from the campus. The citizens of the town have a commendable pride in the school. They have always extended a cordial welcome to the students—"Our boys and girls," they call them—and have seen that the town environment is favorable for the school.

BUILDING AND EQUIPMENT

There are three main buildings: The Administration Building, the Girls' Dormitory, and the Boys' Dormitory. These are brick buildings and have all modern conveniences, such as, steam heat, electric lights, sanitary closets and bath equipment. All buildings are screened throughout. Our gymnasium, a frame building, was made during the session of 1928-29. The material was secured and the boys began work. Dressing rooms, band room, and bathing facilities makes one of the most useful buildings on the campus. Who built it? Boys, girls, faculty, and community. By having this building a signal honor came to the school this session, that of gaining championship in Junior College Basket Ball.

The equipment of the school in all departments is modern and adequate for the purpose for which it is intended. The agricultural, home science, and general science laboratories meet the standards required for the work. The commercial department is up-to-date in every respect. Plans are made for this summer to make interior changes of present buildings, build a new dormitory, auditorium, practice home and agricultural building. This will make our plant up to date in every respect.

THE FARM

The school farm consists of 80 acres of land conveniently located which is used for growing vegetables, raising feed crops and grazing. It furnishes an effective laboratory for the teaching of agriculture.

A modern dairy barn, with concrete floor, steel stanchions, and other appliances furnish practical work in dairying. A splendid herd of registered Jersey cattle is owned by the school. Milk from the dairy is used at the dormitory.

The hogs in the school herd are from the Scissors strain, and were procured from the James herd at Charleston.

A two-acre orchard is being grown. This, in addition to supplying work in horticulture, will furnish fruit for eating and canning.

A well-conducted poultry department is maintained. Two breeds are used—the White Leghorn from the Ferris strain and the Barred Rock. The incubator and brooder are used and students are given practical lessons in poultrying.

An effort is made to have the very best garden possible at all times of the year.

The activities undertaken in the conduct of the farm afford an object lesson in teaching and furnish projects for vitalizing the work of the class room. Every farm in Holmes county should have at least these activities in successful operation.

EXTENSION WORK

We wish the school to serve all the agricultural interests of the county, and we stand ready to assist any one in the county in all ways within our power. If you ask us to do something we are not prepared to do, we shall find the fellow who will be able to serve you without cost to you.

We have a leveling instrument and are prepared to terrace land, to locate ditches, and shall be glad to send capable students to any part of the county without cost to the farmers, except transportation. We shall, also, be glad to test seeds, make tests of milk showing quantity of butter fat, assist in laying out farms and making suggestions for crop rotation. We can lay out, prune and spray your orchard; vaccinate and inoculate your cattle and hogs. We can plan and assist you to install light and water plants in your homes. Our Education and Home-Science department take pleasure in helping teachers and parents to solve their problems.

STUDENT LABOR

All the work of the school and farm is done by

the students. Besides the practical work in Agriculture required by the state, students may work extra time for which they will be paid at the rate of 15 cents an hour. In extra work we put the matter on a business basis and expect an hour's work for an hour's pay. Preference will be given efficient, willing workers. This plan offers industrious fellows the opportunities to earn a part of their expenses by their own efforts. A few ambitious, hard-working students earn all of their expenses each year, and usually their literary work is of the highest type. Seventy-five per cent of our boys have earned a part of their expenses this session.

The dignity of labor is one of the lessons we of the South need to learn and one of the most important functions of the school is to dignify manual labor and ennoble the laborer. We shall not have any one connected with the school in any way who does not enter heartily into the spirit and set a good example. An idle person will not find a congenial atmosphere here.

A number of regular jobs are open to boys and girls who wish to earn a part of their expenses. Application for these should be made to the superintendent.

SCHOLARSHIPS

The school offers working scholarships, as dining-room waitresses and custodians of buildings, to worthy girls and boys. These carry an amount sufficient to pay from one-third to one-half of the student's board. In order to hold one of these scholarships the student must make passing grades in his work and must show himself to be loyal in every respect.

Federated Club Scholarship

The Holmes County Federation of Women's Clubs offers one whole or two half scholarships to girls. Applicants from the rural section of Holmes county will be given preference. The committee may use its discretion in choosing applicants from rural

sections of Carroll and Attala counties. Moral character and scholarship shall be considered in making the award.

Application for one of these scholarships must be mailed by July 1st, to Mrs. C. A. Doster, Durant, Mississippi. Successful applicants will be notified August 1st.

BOARDING DEPARTMENT

The boarding department will be under the immediate supervision of the superintendent and the matron. It will be our purpose to give the students committed to our care the comforts and attention of well-regulated Christian homes and to make this an entirely safe place for them.

The teachers live with the students in the dormitories and supervise their work and study. This contact and association makes dormitory life one of the best features of our Agricultural High Schools and Junior Colleges.

ROOMS AND ROOM-MATES

The matriculation fee of \$5.00 is required before any room is reserved, this is not an extra fee. All students pay the fee upon entrance unless it has been sent in to reserve room at an earlier date. Former students are given preference to former rooms until July 15th. After this date rooms may be assigned in the order for which they are spoken.

Rooms in the dormitory are furnished with single-sized beds, washstands, dressers, chairs and tables. Each student is expected to bring with him the following articles:

- Two pairs of sheets (single bed size)
- One pair of blankets or quilts
- One pair of white counterpanes
- One pillow
- Two pillow cases

Towels and toilet articles

One laundry bag.

All articles to be laundered should be marked with the full name of the owner.

One's room mate is much more to be considered than the room. An undesirable room-mate can make the most desirable room unfit to live in. If any one has preference of room-mates the authorities are willing to try to permit them to room with each other, at least until they prove that such is not good for themselves or for the school. Many of the students are unknown to us at the opening of the session and some changes in room-mates are necessary. However, constant changing is not desirable nor permissible.

DISCIPLINE

Education means discipline—discipline of the mind and body. School government should be such as to inspire the student to the right government of himself. The greatest amount of freedom consistent with good order will be allowed in the direction of individual conduct, and privileges will be withdrawn when abused. It shall be our purpose to instill principles of right conduct and that high regard for the rights of others, so that when our boys and girls become men and women they will be law-respecting and law-abiding citizens. The tone and character of our student body are such that we shall return the boys and girls stronger in all good things than when they came to us. If we get the right kind of material we promise to do this. We appreciate the honor system as a strong factor in the formation of good character, yet proper guidance and control will be exercised.

The school is not intended as a reformatory for refractory boys, and vicious, idle fellows whose influence is injurious to the student body, and who show no disposition to improve their opportunities will not be retained.

REGULATIONS FOR DORMITORY STUDENTS

1. Each student is expected to register, get classified, and meet classes immediately after he arrives.
2. Each student is expected to be in his or her room during study hours.
3. Every student is expected to report to all meals unless reported sick.
4. No student will leave campus without obtaining permission except at such times general permission is given to all students.
5. High school students report to study hall during vacant periods.
6. Students under 20 years of age unless responsible for own expenses must have written permission from parents or guardians if they wish to visit off campus.
7. Smoking except in rooms will not be permitted.
8. Students under 20 years of age unless responsible for own expenses cannot withdraw except by written consent of parents.
9. Friends who visit for meals or to spend night in dormitory should report to matron or dean.
10. In returning to campus from visits, etc., girls are expected before dusk and boys not later than 10 p. m.

ENTRANCE REQUIREMENTS

Any boy or girl in good health and of good moral character, who has completed satisfactorily the work of the 9th grade or at least 3 units is eligible for admission to our high school department.

Full credit is given for work done in any accredited high school. A transcript properly made out should be presented at the opening of the session. Those who come from schools not accredited validate their units by examination or take subjects over as

new. Such special examinations are given during the eighth and twentieth weeks of school. A student must be making a creditable showing in his work in order to be given such test: His classification will not be determined until work is properly validated.

All students on entering will be required to sign the following pledge: "I hereby promise on my honor that while a student of the Holmes County Agricultural High School and Junior College, not to have in my possession any kind of fire arms; not to drink or bring on the campus any form of intoxicating drink; not to engage in 'hazing' or other maltreatment of a fellow student; that I will not leave the school grounds without the permission of the dean, matron or faculty member who is serving in their stead."

DRESS

The dress of the students should not be extravagant. Inexpensive clothing kept neat and clean is desirable. Each student is expected to wear own clothing. Borrowing is an expensive, useless and unsanitary habit. Each girl is expected to bring one pair of black or navy blue bloomers and white blouse for physical education. Each dining room girl is required to have white apron trimmed in maroon. These will be made by the girls the first week of school so that all will be made by the same pattern.

For graduation the college students will use caps and gowns. High school girls will make their own class day dress of voile or organdie and will be allowed only one other commencement dress. These to be made under the direction of home science teacher and class sponsor.

SUNDAY SCHOOL AND CHURCH ATTENDANCE

We believe that the Sabbath Day should be used

for rest and worship. To this end all students are expected to attend Sunday School and Sunday morning preaching service. They are also encouraged to attend the night services. There are four churches in Goodman as follows: Methodist, Baptist, Presbyterian and Lutheran. All these extend a cordial welcome to students and teachers of the school.

Further religious training is obtained in the Hi-Y and Girl Reserves organizations. These afford fine opportunities for spreading a Christian influence. Chapel exercises are also directed toward moral and religious teaching.

EXPENSES

Matriculation Fee, payable to reserve room.....	\$ 5.00
Library and Student Activities Fee, payable at opening of school.....	5.00
Board per month.....	12.50

No tuition is charged students from Holmes and Carroll counties. Students from adjoining counties that have joined with Holmes in Junior College program according to Senate Bill 131 are admitted without tuition charge. Students from other counties will pay \$3.00 per month; if paid on semester plan \$12.50 each semester; \$25.00 per session.

A scholastic month consists of four weeks and board is charged accordingly. The board calendar showing date on which board is due is found at front of this catalogue. Board is due and payable each month in advance and patrons are urged to make prompt remittances without waiting for notice from office. \$12.50 per month.

The matriculation fee of \$5.00 should be sent in at once to insure room reservation.

A student who fails to make his board deposit during the first five days of the month will be charged 50 cents per day until the deposit is made. Students who leave before the close of the month will be charged full time unless absent 10 days, and then only when the absence is due to sickness.

LIBRARY

The library has been enlarged to meet the requirements of the proper authorities and contains books, magazines, bulletins and papers for reference work in the various departments. The reading of the students will be directed and supervised by the faculty, and each one will be encouraged to spend at least a period a day in this room.

More than 1000 new volumes have been added to the library this session, which brings the total number beyond the requirement. Practically 100% of these books are usable. Also tables and chairs are added to make the library more attractive and come up to standard. A full time and well prepared librarian will be in charge of the library.

BOOKS

The college book store is in the administration building where all text book and other school supplies can be purchased. The book store cannot extend credit to students for their supplies.

EXAMINATIONS AND GRADING

Two regular examinations will be held during the session—one at the close of each semester. Written tests will be given at close of each six weeks. Special examinations on subjects conditioned in our school or to validate work done in non-accredited school will be given in the eighth and twentieth weeks of school. Definite classification will be made after the 8th week. The basis of classification with minimum units needed is as follows: Tenth grade, 3 units; eleventh grade, 7 units; twelfth grade, 11 units; freshman college, 15 units; sophomore college, 24 semester hours. Exceptions may be made to the amount of one unit or four semester hours in case of seniors who have a chance and expect to graduate the following summer.

The grading will be made in letters:

HONOR POINTS

Three honor points for semester grade of A.

Two honor points for semester grade of B.

One honor point for semester grade of C.

High School Students:

Literary society work, Athletic and Physical Education, Band and Glee Club will each be checked as one semester hour courses each semester. On the basis of 16 units for graduation, a student who earns 90 honor points averages 24 for each year attendance in this school will be graduated with "special" honor. One who graduates with an average of 16 honor points for each year in attendance will be graduated with "honor" from the high school department.

For College Students:

Honor points will be given in scholarship for each semester hour of credit with grade of A. B. C. as for high school. Honor points for extra curricula activities will be given the same as for high school students. On the basis of 60 semester hours for graduation, college students who earn 150 or who averages 75 honor points each year in attendance will be graduated with "special honors. One who earns 120 or averages 60 honor points each year will be graduated with "honors." Reprimands will reduce honor points in proportion to offense for which reprimands are given. No student will be allowed to graduate from high school or Junior College whose record shows a negative number of honor points.

LITERARY SOCIETIES

Literary societies are a valuable supplement to the work of any student. There comes a time in the life of every person when he wishes to stand on his feet and express his views on public questions. Lack of training in this important work at the right time proves a serious handicap in life. The program consists of debates, music, declamations, readings, current

event items, and other interesting and instructive features. Declamation contests for medals will be arranged to encourage this work. From the interest shown, we confidently expect this line of work to become one of the most helpful of our school.

Fine work and excellent literary society spirit has developed this year. Each student is expected to join and work in one of these societies—the Alethean and the Clio Phi.

STUDENT PUBLICATIONS

THE PAPER—"The Growl"

The College Paper—"The Growl"—suggested by our teams known as "Bull-Dogs" has won its way into the lives of our students and friends and each one eagerly awaits the following issue. Through the columns of the school paper the students find chance to learn the art of news writing at close range.

COLLEGE ANNUAL

The "Corner Stone" published for the first time during the session of 1928-'29 is creditable to the institution and to those who made it a success. It is a beautiful book and in years to come will remind every one of those good friends and pleasant experiences of college days.

ATHLETICS

Appreciating the value and importance of proper physical development, students are encouraged to engage in open air exercises and outdoor sports. After the day's work in the school room, a time is set apart for exercise and every student will be expected to take some form of physical training. A director has been provided for the boys and one for the training of the girls.

The campus contains a splendid athletic field. We

shall have teams in all major sports, also track and tennis. Students representing the school on its teams are required to do satisfactory class room work and to conform to all requirements of the State Literary and Athletic Association, of which this school is a member.

The athletic teams are in charge of the faculty and all games are arranged by the teachers. We do not allow participation in sports to conflict with school duties, on the other hand, we get interest, school spirit and efficiency in regular work from these exercises. Every girl should bring one pair of tennis shoes, one pair dark bloomers (navy blue preferable) and a white blouse for their physical education.

BAND

One of the best means to advertise our school is with a band. We have a large group of young men who made fine progress under the able leadership of Prof. Leonard, band director of Millsaps College. Our boys can perform creditably. A reasonable charge of \$2.00 per month is made for his work.

SOCIAL LIFE

Desirable social and moral atmosphere have more to do with character building than class room work. Our teachers will co-operate in their efforts to provide suitable recreation for the student body, and will take a lively interest in all those activities calculated to supply the demands of their social nature. We shall not retain the services of teachers who prefer to find their social pleasures away from the student body. Association of teachers with the pupils during their out-of-town hours is too valuable an influence for the school to neglect. Parents may rest assured that their sons and daughters will have the best attention and care in this most important phase of school life.

WEEK-END VISITS

Experience has proved that it is not best for students or teachers to visit home or elsewhere too often. Once each six weeks is considered sufficient for regular visits. Permits for leaving on visits should be made from parents to superintendent or dean rather than from students. Girls are allowed to visit only after invitation comes direct from parents into whose home the visit is to be made. All will be expected to observe this suggestion. At any time when students give evidence of poor class work the visiting privilege and social privilege will be withheld. Parents are expected to co-operate in this matter even if it means that their own child stay from home a week or two longer than expected.

COURSE OF STUDY

The course of study for Agricultural High Schools is a state adopted course. There are required subjects in each year and electives which are generally vocational.

Sixteen units are required for graduation. Our graduates are admitted to all the colleges of the state without examination. To enter the work of the second year, students must bring a certificate showing that they have credits from an accredited school, or must validate the work by an entrance examination.

COURSE OF STUDY FOR HIGH SCHOOL DEPARTMENT

Graduation from our High School department requires units as follows:

	Units.
English	4
Mathematics	3
History	2

Science	1
Home Science for Girls.....	2
Agriculture for Boys.....	2
Electives	4

In the subject of Latin, 2 units must be completed in order for any credit in this subject to count toward graduation. Under special conditions an additional unit in science may be substituted for home science or agriculture.

SECOND YEAR

	Units
Algebra, 2nd year.....	1
English, required.....	1
History, Modern, required.....	1
Latin, Caesar, elective.....	1
Biology, elective.....	1

THIRD YEAR

	Units.
English, required.....	1
American History, required.....	1
Shorthand and Typewriting, elec.....	1
Agriculture, required.....	1
Home Economics, required.....	1
Hygiene and Com. Geog., elective.....	1
Plane Geometry.....	1

FOURTH YEAR

	Units.
English, required.....	1
Business Arithmetic and Book- ing, required.....	1
Chemistry, elective.....	1
Shorthand and Typewriting, elec.....	1
Agriculture, required.....	1
Home Science, required.....	1
American Government and Econo- mics, elective.....	1

JUNIOR COLLEGE WORK

About twenty years ago, the educational leaders of Mississippi inaugurated two movements for the improvement of rural schools. The first was the placing of a good consolidated school in reach of every child in the country districts. This was followed by the establishment of the Agricultural High School which was to be the big consolidated school of the county to provide adequate high school training at a minimum cost to all the children in the county. Holmes county leaders, quick to realize the promise of these plans, were among the first to put these movements into operation. For the last few years the development of the consolidated schools of the county has resulted in bringing two years of high school training to the very doors of almost every child in the county. A few of the rural schools are offering three years of high school training at the home school, and, in exceptional cases, the four year course is being given. However, experience has taught that it will not be possible from a financial standpoint for every consolidated school to do twelve grades accredited work. On this point the state superintendent of education says: "It is far better to have a real strong school with first class work running through to eight or ten grades rather than a weak school maintaining, with great difficulty, work through twelve grades. The completed desirable consolidated school program will result in the transportation of children of the 11th and 12th grades from the weak districts to a strong consolidated district, the agricultural high school or town school."

The development of this program caused the Trustees of the Agricultural High School four years ago to plan for the enlarged usefulness of this school as its part in the county system. To meet the needs and development of the consolidated schools, it is now possible for the freshmen and sophomore years of college work to be added here. This step is taken after mature deliberation and at the suggestion of the state department of education.

CAMPUS SCENES

BOYS' DORMITORY

GYMNASIUM

JUNIOR COLLEGE CHAMPIONS—1930

PHYSICAL EDUCATION—GIRLS

Seven years ago, the high schools of Mississippi graduated 1,000 students; last year about 8,500 graduated from the high schools of the state. About one-half this number will go to college. The state colleges have been turning applicants away for the past few years.

The logical and necessary step is the Junior College where the ever increasing number of high school graduates may get one or two years of college work near home, under high school supervision, and at from one-half to one-third the cost in the four year colleges of the state.

The legislature of 1922 provided for Agricultural High Schools which met the approval of the state department of education to raise their course of study to junior college grade. Realizing the relation between this school and the consolidated schools, the trustees of this institution very wisely decided to add junior college work.

All requirements of the educational authorities of the state and colleges are being met so that full credit will be given for this work in every college of the state. Students who pass successfully the college work here find no difficulty in receiving credit at any senior college in the state.

COLLEGE WORK

COURSE OF STUDY

This course consists of standard freshman and sophomore work in accordance with the requirements named by the state accrediting commission for junior colleges, and is recommended by the commission for acceptance by all the colleges of the state. The requirements for entrance are the same as the A-1 colleges, which is fifteen units from an approved four year high school, or passage of the college entrance examination.

FIRST YEAR COLLEGE—JUNIOR

Required:

English 1.....	6 semester hours	✓
Oral English.....	2 semester hours	
History 1.....	6 semester hours	✓
Agriculture or Biology.....	6 semester hours	✓
Home Science or Biology.....	6 semester hours	
Mathematics or Modern Language.....	6 semester hours	
Music.....	2 semester hours	✓
Physical Education.....	2 semester hours	
(Exception by Physician)		

Electives:

Hygiene.....	2 semester hours	
Child Craft and Home Nursing.....	2 semester hours	
Education I.....	6 semester hours	
Bookkeeping I and II.....	6 semester hours	
Stenography I and II.....	6 semester hours	
Music.....	2 semester hours	
Expression.....	2 semester hours	
Commercial Law.....	2 semester hours	
Salesmanship.....	2 semester hours	

SECOND YEAR COLLEGE—SENIOR

Required:

English II.....	6 semester hours	
History II.....	6 semester hours	
Political Science.....	2 semester hours	
Physical Education.....	2 semester hours	
(Exception by Physician)		
Mississippi Geography.....	2 semester hours	

Electives:

Education II.....	6 semester hours	
Modern Languages.....	6 semester hours	
Chemistry.....	6 semester hours	
Music.....	3 semester hours	
Expression.....	3 semester hours	

Bookkeeping 1 andd II.....	6 semester hours
Stenography Iand II.....	6 semester hours
Commercial Law.....	2 semester hours
Salesmanship	2 semester hours

Sixty-four hours are required for graduation. Fifty-four hours of work other than commercial, expression, music and physical education will be required for a diploma.

ENGLISH

Miss Jessie Van Osdel, M. A., Peabody College.

English. The purpose and aim of the course of study offered in English is:

1. To train the student in a free and easy oral use of his mother tongue, by much practice in conversation, oral reports, story telling and debating.

2. To enlarge his vocabulary and teach him how to avoid and correct the common errors that creep into everyday speech.

3. To train him to write in a pleasing and effective manner.

4. To train him to understand and appreciate good literature and make his own some of the ideals expressed there.

English I. During the entire year students are given much pratctice in writing and speaking the various forms of discourse, with constant attention to grammar, punctuation, and work study. In each semester one long paper will be required. In the parallel readings various types of literature will be studied.

English II. The entire year will be given to a survey of English Literature. Special emphasis will be placed upon historical background and upon literature as a reflection of the life of a people. Three hours a week required.

HISTORY AND POLITICAL SCIENCE

Mrs. C. N. Craig, M. A., University of Mississippi.

The aim of the Department of History is to enable the student to acquire an acquaintance with the past in order to more intelligently understand the problems of the present. In all courses in history two things will be kept in view students will be required to acquaint themselves with the significant facts in the development of the nations studied and to learn why these facts are considered significant.

HISTORY I. Medieval and Modern Ages. This is a general course in History of Continental Europe from the time of the Barbarian's Invasions to the present. The purpose of the course is to prepare the student for the study of the government institutions of our own and other countries, and as the basis for a correct understanding of the problems of civilized nations.

Texts: First Semester:

History of Western Europe—Higby.

Second Semester:

Schapiro, Modern and Contemporary European History.

Credit: 3 semester hours. **Required.**

HISTORY II. This course will be devoted to a study of the history of the United States from early colonial times to the present. Both of these courses will cover the same amount of work and the same amount of outside reading, etc., as required by the State University.

Texts: First Semester:

Muzzey, Vol. I.

Second Semester:

Muzzey, Vol. II.

Credit: 3 semester hours each semester. **Required.**

POLITICAL SCIENCE. This course consists of comprehensive survey of the principles and practices of American Government as exemplified in the nation, state and in the several divisions of local administration.

Text: First Semester:

Munro's Government of the United States.
2 semester hours.

Second Semester:

Mississippi Geography, by Lowe.
2 semester hours.

MATHEMATICS

J. B. Price, B. S., Millsaps
M. S. University of Mississippi

First Semester—College Algebra. A rapid review of the fundamentals of Algebra, followed by the study of each subject as the theory of equations, progressions, permutations and combinations, binomial theorems, determinants, logarithms, and theory of quadratic equations.

First Semester: Hart's College Algebra.

Credit—3 semester hours.

Second Semester: Solid Geometry—Smith's Essentials.

Credit—3 semester hours.

Second Semester: Plane Trigonometry—Smith's Essentials.

Credit—3 semester hours.

HOME ECONOMICS

Miss Lottie Peebles, B. S., Peabody College
Graduate Student Peabody College

The purpose of the course in Home Economics is threefold:

1. To give the young women an intelligent appreciation of the occupation of home-making, and to

broaden their outlook on life through consideration of the social and economic factors which govern the home.

2. To cultivate their aesthetic taste in the selection of clothing and in the decoration of the home.

3. To develop the ability to apply the various processes taught in the selection and preparation of food, and to develop this same ability in the construction and care of clothing and in the efficient management of the home.

The Home Economics' Laboratories are adequately fitted with the equipment necessary for good work.

First Semester. Foods and Cookery—The work of the first semester includes a study of the general principles involved in cooking the more common foods, and the application of the principles to the preparation of simple meals. These meals are planned from the standpoint of composition, nutrition, and relative cost of the foods served. Attention is given to the selection and marketing of foods. Thrift is taught through practice in conservation of food. One hour lecture and two 2-hour laboratory periods each week.

Credit—3 semester hours.

Second Semester. Clothing and Textiles—The course for the second semester comprehends a study of the sewing machine and its attachments, and of the use of commercial patterns. Special attention is given to the purchasing and care of clothing, and to the development of good taste in the choice of wearing of clothes. The laboratory work consists of practical problems in the making of all kinds of garments for personal use. One hour lecture and two 2-hour laboratory periods each week.

Credit—3 semester hours.

HYGIENE

This course for college girls offers a field of fine study of health conditions that should be stressed. Every college girl is urged to take the course. Open to first and second year college students.

Two hours each week during the first semester.
Credit—Two semester hours.

CHILD CARE AND HOME NURSING

This course is designed with special emphasis upon the problems of arranging and care for the home. Every college girl would do well to take this course. Two hours each week during semester.
Credit—Two semester hours.

BUSINESS DEPARTMENT

Miss Lucile Gray, B. S.
Mississippi State College for Women

This department offers thorough training to young people who wish to prepare themselves for positions as private secretaries, stenographers, bookkeepers, or similar vocations. The subjects of English, grammar, paragraphing composition and spelling are so closely correlated with business efficiency, that each student is given necessary work in these studies.

Adequate training in several departments of business is comprehended by the Secretarial and Commercial Courses. The Secretarial Course trains for originality applied to composition and organization, as well as efficiency in note-taking and accuracy in transcribing copy. The Commercial Course offers intensive training in the theory and practice of accounts, a foundation to the principles of commercial law, and drills in rapid calculation. The students who hold an accredited high school diploma, the completion of either the Commercial or Secretarial Course leads to a certificate of proficiency. Students may also win awards from the Underwood Company in typewriting and a certificate from the Gregg Publishing Company in Shorthand.

Course 1. This includes principles of stenography and simple dictation. The time is equally divided between shorthand and typing. Business correspond-

ence and spelling are included in the courses. Regular classes meet for 2-hour periods five times each week. Extra periods for practice may be required.

First Semester—3 semester hours credit. No credit is given for typing if taken without stenography.

Course 2. This is an advance course in stenographic work. More rapid and rigid drills than in Course 1. Classes meet 5 times each week.

Second Semester—3 semester hours credit.

Course 3. Elementary Bookkeeping. Three hours each week with extra practice periods if desired.

First Semester—3 semester hours credit.

Course 4. Advanced Bookkeeping.

Second Semester—3 semester hours credit.

Course 5. Commercial Law. Two hours each week.

Course 6. Salesmanship. Two hours each week.

Second Semester—2 semester hours credit.

MUSIC

Miss Mabel Gewin, B. A. and
Music Diploma Mississippi State College for Women

A number of our students have begun the study of music and wish to continue the subject in high school. To meet this need, we have a competent teacher who gives instruction in piano and voice. We are prepared to give full credits for this to those students who meet the requirements of the state board. A charge of \$4.00 per month is made for each student taking Piano or voice.

The maximum number of units for high school credit is two. To secure this number of units the following requirements must be met:

(a.) Two hours (2 periods of not less than 30 minutes each) per week of private instruction in applied music; one period per week of class instruction in the theory and history of music; six hours (one

sixty minute period each day) per week of home practice.

(b.) For this amount of study and practice in each year, one-half unit of credit will be allowed provided at least two years of preliminary study has been done.

College Music

In order to begin college music, Czerny studies from Op. 299, Book I, Nos. 8 and 9 must be played from memory. All major and minor scales (harmonic form) must be played in moderate tempo before the director. The first movement of a sonatina and at least 3 melody studies must be played before the director.

First Year College

Czerny, Op. 299; Books II, III, IV; Bach Three Part Inventions; Haydn Sonatas, Nos. 2, 5, 7, 11, 12, 14, 16, and 17; Mozart Sonatas, Nos. 4, 5, 7, 10, 11, 12, 13, and 14. Curlitt Mimosen and easy Mendelssohn Songs Without Words with selections from modern composers suited to this grade. Theoretical work required; Harmony 1.

Recitation two theoretical periods throughout the year.

Two Semester hours.

Second Year College

Czerny, Op. 740; 4 three-part Bach Inventions, Mozart's Sonatas Nos. 3, 6, 8, 9, 16, 17, 18, and 19; Haydn's Sonatas Nos. 1, 3, 4, 6, selections from modern composers, continuation of scale work with dominant and diminished seventh chords, arpeggios and broken chords. An examination will be required in major and minor scales, in 3rds, 6ths, and 10ths, in similar motion, four octaves; arpeggios, dominant and diminished seventh in first position.

Recitation two half-hour periods a week throughout the year.

Two Semester hours.

Ear Training and Sight Singing

This two hour course is required of College Freshmen and is open to second year students as well.

Two hours each week.

Music, History and Appreciation

This two hour course is given during second semester and is required of college Freshmen.

Class meets twice each week.

EDUCATION

M. C. McDaniel and Mrs. C. N. Craig

For those who expect to teach, this is an indispensable course.

EDUCATION I. First Semester—Texts: "An Introduction to Education," by Frazier and Armentrout. "School Efficiency," by Bennett.

The purpose of this course is to introduce the pre-service teacher to the problems of education, and to meet the needs of education. The texts are in nature of a survey course in the field of education. In connection with this study the student becomes acquainted with the various theories in the field of education, the major problems to be solved, present day practices and systems, and the history of modern education.

Second Semester—PSYCHOLOGY. This course treats of the principles of psychology with some application of same in methods of teaching.

Credit—3 Semester hours.

EDUCATION II. First Semester, History of Education in the U. S.

Credit—Three Semester hours.

Second Semester. Class room management and High School methods.

Credit—Three Semester Hours.

SCIENCE

Mr. Price and Mr. Branch

SCIENCE I. College Biology—The purpose of this course is to develop in the pupils a usable knowledge about plants and animals indigenous to the soil and climate of Holmes county and surrounding counties, and to create interest and ability in the study of higher sciences.

In this course the structure, life processes and habits of plants and animals will be studied. Facts and principles learned will be closely correlated with human life.

Recitation 2 hours a week, laboratory 2 hours a week throughout the year.

Credit—6 semester hours.

SCIENCE II. College Chemistry. Text: "General Chemistry," by McPherson and Henderson.

This course is open to first and second year Junior College students. The aim of this course is to give the students a clear insight into the underlying principles of chemical action, and the relation of chemical compounds and elements. The student is also taught to familiarize himself with chemical equations and through them to set forth clearly his idea of chemical reactions.

Two recitations and 2 laboratory hours' work per week throughout the year.

Credit—6 semester hours.

AGRICULTURE

B. A. Dixon, B. S., A. and M. College

First Semester: Soils.—3 semester hours. 3 rec-

itations per week. A non-technical general course: proper care and management of the soils in their relation to fertility and crop production.

Text: Soils, by Weir.

Dairying. 2 semester hours—2 recitations per week. Selection, feeding and management of the dairy cow. Milk secretion; composition of milk and its products; care of milk and cream on the farm.

Text: Milk and its Products, by Wing.

Second Semester: Crops: 3 semester hours. 3 recitations per week. Methods of selecting, planting, cultivating, and harvesting common field and forage crops.

Text: Productive Farm Crops, by Montgomery.

Farm Poultry. 2 semester hours. 2 recitations per week. A general course on management of farm poultry, including breeds and varieties of poultry with special stress on culling for egg production and poultry diseases.

Text: Productive Poultry Husbandry, by Lewis.

EXPRESSION

Miss Annie Bess Watkins, B. A., Blue Mountain, Miss.

Students should take advantage of their opportunity to take this important line of work. The courses are based upon the latest methods employed by the leading colleges, and the character of work is up to standard in every respect. The following courses are required for the Expression Certificate or Diploma. Each course carries three semester hours college credit or one-half unit High School credit. Classes are limited to six students. For the benefit of students who have had expression with no textbook and whose work justifies such condition, provision may be made for such student to take two volumes during a year in order to complete requirements for a certificate or diploma. A charge of \$4.00 per student per month is made by the teacher.

First Year. Technique of reading; study of selection from standard literature. Simple readings.

Text: Evolution of Expression, Vol. I.

Second Year. Story telling. Readings.

Text: Evolution of Expression, Vol. II.

Third Year. Study of Drama. Advanced readings.

Text: Evolution of Expression, Vol. III.

Fourth Year. Public Speaking. Advanced readings.

Text: Evolution of Expression, Vol. IV.

All students of this department take part in class and public recitals.

MODERN LANGUAGES

Miss Johnnie Lou Williamson, B. A.

Mississippi Woman's College

Graduate Student University of California

FRENCH

Course 1. Elementary French. A thorough study of the principles and elements of French grammar and syntax. Drill in spoken French. Dictation and reading.

Course 2. Open to those who have had Course 1 or two years of high school French. Advanced composition and conversation. Translation of Nineteenth Century Texts.

Credit—6 semester hours.

SPANISH

Course 1. Elementary Spanish. Study of the principles of Spanish grammar, pronunciation, conversation, dictation, and reading of elementary texts.

Credit—6 semester hours.

Course 2. Open to those who have had Course 1 or two years high school Spanish. Advanced composition and conversation with translation from Spanish Literature.

Credit—6 semester hours.

PHYSICAL EDUCATION

Mr. Branch and Miss Williamson

Course 1. Calisthenics, marching tactics, corrective and developing games. Required of all high school girls. One period a week.

Course 2. Advanced marching tactics, exercises and games. Required of all college girls. Two periods a week.

Dormitory boys and girls are expected to take some form of physical exercise from 3:45 to 4:45 each Tuesday and Thursday.

ENROLLMENT OF STUDENTS
